Description:

Electric Power Systems, Inc is a unique company offering a wide range of experience in the area of power system operations, design, consultation, and studies. We provide extensive services from planning studies, design, and construction, to periodic testing and maintenance. We are currently seeking a skilled Electrical Engineer to join our Washington team.

Responsibilities:

This person will be responsible for the performance of system planning studies for electrical utilities and developers. The work will include system studies using PSS/e and PSLF to complete power flow, short circuit, and other planning studies. The person will be responsible for developing dynamic models based on unit testing and may participate in field testing of generators. The person will be responsible for developing and managing complex data sets and analyzing dynamic and transient recordings from various sources. The person will be responsible for preparing detailed technical reports and developing proposals and project schedules. The person will ultimately be responsible for managing their own projects including tracking project data requests, creating data submissions, providing progress submissions to clients, and responding to comments from clients.

Benefits:

Electric Power Systems offers a great benefit package including Medical Insurance, Life Insurance, Long Term Disability, 401 (k) Plan, Employee Assistance Program, Paid Vacation and Paid Holidays.

Electric Power Systems, Inc. is an Equal Opportunity Affirmative Action employer that values diversity at all levels. We consider candidates for all positions on the basis of qualifications and without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, marital status, protected veteran status, disability and any other legally protected status. Minorities, women, veterans and individuals with disabilities are encouraged to apply. We are an EEO/AA employer.

Electric Power Systems, Inc. is a smoke free and drug free company.
