Description:

Electric Power Systems, Inc is a unique company offering a wide range of experience and education in the area of power system operations, design, consultation and studies. We provide extensive services from planning studies, design and construction, to periodic testing and maintenance. We are currently seeking a skilled Electrical Engineer to join our Anchorage team.

Responsibilities:

This person will be responsible for the support and performance of distribution line design and planning, including overhead and underground line extensions and rebuilds, structure and guying strength calculations, clearance reviews, right-of-way requirement determinations, one-lines, protective device coordination, short circuit calculations, and operation of system modelling and planning software. The person will be responsible for developing means and methods of tracking project design status and data requests, design coordination, design progress submissions to client, and incorporating and responding to comments from clients.

Benefits:

Electric Power Systems offers a great benefit package including Medical Insurance, Life Insurance, Long Term Disability, 401 (k) Plan, Employee Assistance Program, Paid Vacation and Paid Holidays.

Electric Power Systems, Inc. is an Equal Opportunity Affirmative Action employer that values diversity at all levels. We consider candidates for all positions on the basis of qualifications and without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, marital status, protected veteran status, disability and any other legally protected status. Minorities, women, veterans and individuals with disabilities are encouraged to apply. We are an EEO/AA employer.

Electric Power Systems, Inc. is a smoke free and drug free company.
