## Description:

Mechanical Builders, Inc. is a unique company offering a wide range of experience and education in the area of power system operations, design, consultation, studies, petroleum industry controls, and general engineered systems. We provide extensive services from planning studies, design and construction, to periodic testing and maintenance.

## Responsibilities:

This person will be responsible for coordination with clients, engineers, and support staff to develop material take off, cost estimates and bid/proposals while insuring conformance with project specifications. Construction crew development, orientation, and deployment to various job sites. Construction planning, Scheduling, and coordination with various Sub/General contractors. Develop and maintain production schedules, Job Expense/Budget, and progress tracking/reporting to insure jobs are complete on schedule and within budget. Development and deployment of Tool Package, Consumables, and Equipment per specific job requirement. Management and tracking of large tool/equipment, and vehicle inventory. Coordinate with in house support staff to insure all logistical/freight needs/requirements of multiple jobs are met and conform to schedule. Identify and resolve constructability issues. Estimate, submit and track change orders. Submit and track RFI's. Insure employee conformance to the strictest of OSHA and Company Safety Policies. Work with Purchasing, Accounting, and expediting personnel to insure accurate approval of invoices.

## Requirements:

Must be a team leader,  
Excellent communication and problem solving skills,  
Proven proficiency with computers and various programs such as Excel, MS Project and various estimating programs  
Ability to read and understand prints of mechanical, civil, and structural design  
Have good knowledge of National, Municipal, Utility, and Local Codes such as ASME Sec. IX, AWS D1.1, NFPA, Uniform Mechanical, International Plumbing, National Fuel Gas and others applicable to the Industrial Mechanical Trades  
Ability to develop and implement Testing and Pre Commissioning Procedures / Documents relevant to Project Specifications

Ability to recognize and understand Weld Inspection requirements

Ability to recognize and understand Coating requirements

Must possess a good base knowledge of Mechanical, Civil, and structural design and construction practices relative to earthquake prone, extremely remote, and arctic locations.

Must be willing to travel to remote locations with limited facilities

Must be willing and able to travel in harsh conditions via many different means of transport to include but not limited to: ATV, Side by Side, Snow machine, Snow Cat, Boat, Bush Plane, Helicopter and the local Rent-O-Wreck

Must be familiar with and or have training in the following:

Aerial work, Safe Rigging practices, Confined Space Entry, Hot Work, Hazard assessment and communication, Lock out Tag out, OSHA 10 and all other factors of Safety Awareness and Incident Prevention.

Must be familiar with heavy lift equipment and procedures for moving loads in excess of 50 tons

A valid driver's license with an insurable driving record is required. Attention to details is a must in this position. We are seeking a team player, self-starter and a well organized person who is willing to work in a fast paced environment.

Benefits:

Mechanical Builders, Inc. offers a great benefits package including Medical Insurance, Life Insurance, Long Term Disability, 401 (k) Plan, Health Club Membership, Employee Assistance Program, Paid Vacation and Paid Holidays.
