Description:

Electric Power Systems, Inc is a unique company offering a wide range of experience and education in the area of power system operations, design, consultation, and studies. We provide extensive services from planning studies, design, and construction, to periodic testing and maintenance. We are currently seeking a skilled Electrical Engineer to join our Washington team.

Responsibilities:

The successful applicant will be mainly responsible for the support and performance of electrical system studies, including transient stability, power flow, short circuit, and other planning studies. This person will also be responsible for developing reports and assisting project managers to schedule and track project completion. Other duties include, but not limited to, tracking project data requests, data submissions, progress reports to clients, and comments from clients.

Benefits:

Electric Power Systems offers a great benefit package including Medical and Dental Insurance, Life Insurance, Long Term Disability, 401 (k) Plan, Employee Assistance Program, Paid Vacation and Paid Holidays, as well as the option for additional supplemental insurance and vision insurance.

Electric Power Systems, Inc. is an Equal Opportunity Affirmative Action employer that values diversity at all levels. We consider candidates for all positions on the basis of qualifications and without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, marital status, protected veteran status, disability and any other legally protected status. Minorities, women, veterans, and individuals with disabilities are encouraged to apply. We are an EEO/AA employer.

Electric Power Systems, Inc. is a smoke-free and drug free company.
